

Myron Axel Rios

Education

Rensselaer Polytechnic Institute – Troy, NY

Bachelor of Science in Computer Science

May 2020

GPA: 3.2/4.0

Professional Experience

Software Engineer, Google – Pittsburgh, PA

June 2020 – March 2025

- Developed end-to-end LLM projects for Google Shopping, improving product categorization and attributes for all products available on Google Shopping, enhancing product discovery and user experience.
- Developed and maintained the Shopping Attributes Labeling System used across Google Shopping to generate Machine Learning training and evaluation datasets (~6 Billion Labels), supporting multiple teams with a flexible, strongly-typed data schema (using Protocol Buffers) to ensure data integrity and future-proof evolving labeling requirements.
- Led a 5-engineer team to architect an extensible, central attribute schema to be used by a foundational LLM to infer product information, enabling [3+] downstream feature teams to launch, by increasing product coverage by 20%.

Google Software Engineering Intern, Google – Pittsburgh, PA

May 2019 – August 2019

- Engineered and launched a high-impact, full-stack feature for Google.com Shopping queries, creating category-based search refinements for both desktop and mobile users, which leveraged large-scale shopping data to significantly improve user discovery and search efficiency.
- Drove the end-to-end development life cycle as an intern, including planning, design, implementation (C++, JavaScript/HTML/CSS), rigorous A/B testing, and data analytics to validate user impact and feature performance across millions of daily queries.
- Became the Intern Pool Champion for the Pittsburgh office and strengthened team morale.

Leadership

Google Pittsburgh HOLA Co-Lead

January 2023 - March 2025

- Led volunteer office efforts of managing local community engagement and professional development events for the Hispanic/Latinx community.
- Spearheaded recruiting and mentorship programs at nearby colleges and schools, hosting 4 regular yearly events to encourage and guide students toward STEM-based careers.
- Led a dedicated committee for HOLA's national virtual events, managing outreach that successfully connected with 180+ students and young professionals across the country for mentoring and career development.

NSBE/SHPE 41st Annual Career Fair Co-Director

Spring 2019 – Fall 2019

- Co-Directed and scaled the university's largest annual career fair, leading a staff of 60+ people across multiple committees to host 200+ companies and achieve a record attendance of over 5,000 students and staff.
- Drove the event's financial strategy, securing corporate sponsorships and registrations that generated over \$150,000 in profit for the organization, a 25% increase over the previous year.

NSBE/SHPE 40th Annual Career Fair Armory Chair

Spring 2018 – Fall 2018

- Secured over \$100,000 in pre-event revenue by strategically establishing and managing tiered sponsorship packages and premium table selection options for attending organizations.
- Optimized event logistics and capacity for the school's largest annual career fair (hosting 180+ companies), designing and implementing a new floor plan that significantly improved vendor capacity and streamlined attendee traffic flow.

Skills, Technologies, and Certifications

Coding Languages: C, C++, Java, Python, HTML, CSS, JavaScript, SQL, JSonnet

Technologies: Colab, Kubernetes, Dataflow, Apache Beam, Cloud PubSub, Apache Kafka, Cloud Load Balancing, AWS Cloudformation, Terraform

Languages: Fluent in English, Spanish and French
